

Boost Up  
Community Centre Team  
January 9th Meeting  
Agenda

- I. Brief recap of meeting with Dani from CentraCare
- II. Name – what are we going to call ourselves?  
Needed for when we are applying for grants and to distinguish ourselves a bit more. Some suggestions: (can tweak or pick something completely different)
  - 1) Haven for Health & Wellness
  - 2) Gather & Thrive Center
  - 3) Wellness Community Hub
  - 4) Revive & Thrive Center
  - 5) Thrive Community Space
  - 6) Centre for Community Wellness
  - 7) Sauk Centre Wellness Hub
- III. Come up with an Elevator Pitch  
This will be used when going out in the community to try and get buy-in from potential partners, donors and community involvement.
- IV. Slideshow – this will tie in with the Elevator Pitch  
Provide stats, our name, mission & vision, how this will be an advantage to and uplift our community.
  - a. **Mission** – **Boost Up** (this will change once we have chosen our name) is a non-profit group of individuals aiming to enhance the overall quality of life in Sauk Centre & the surrounding communities. We strive to lead collaborative efforts by making connections & helping build vibrant families.
  - b. **Vision** – Striving to create a facility to build better everyday health & wellness for families.  
Maybe work we've done so far? Eventually add in drawings of possible spaces. Once partners or donors start coming in add their logos in as well.

- V. Decision Makers group – Brent, Corie, Cal, Kayla  
Adding a co-lead to assist Kayla when not available – Cal/Linda
  
- VI. Business Plan Outline  
In order to show others we are moving forward need to have a business plan in place. This will just be the Outline for now as we won't know dollar amounts yet or the specific details yet.
  
- VII. Start applying for a sustainability grant of some kind  
-these funds can then be used for a “roadshow” to area chambers and other interested partners/donors using the Elevator pitch & slideshow to get more buy-in. We can also use these funds for other things like hiring someone to look at current buildings in our area to assess the pros & cons of utilizing those. Etc.

**LEFT FROM LAST MEETING until we figure out these answers**

- VIII. Following questions needing answers
  - 1) Will the city own the facility? If yes, then most grantors/funders will require that they are the applicant for grants/funds. That ‘may’ also apply for feasibility funding.
  
  - 2) Has the city agreed to a feasibility study yet?
  
- IX. Location
  - 1) Do we have a location in mind? What options do we want to pursue?

X. Consultants for the Study

1) Do we have a consultant or two in mind to do the study and a quote for their services?

2) Funding sources for the study?
